MassHealthHELP.com

Where do most people want to live? We want to live in our own home. Whether home is a single-family residence, a home we share with friends or family members, or an apartment that includes assisted living or other amenities, Medicaid has home health care programs that pay for or provide care at home. These MassHealth programs are the key for many people who want to live at home, and avoid a nursing home admission.

The [Home and Community-Based Services Waiver regulations](#) | [Index](#) | [130 CMR 519.007 \(B\)-\(C\)](#) | allow people to receive Medicaid paid services in their homes, if the home care services keep them out of a nursing home. **The 2024 monthly income limit for Frail Elder Waiver, PACE, and Moving Forward Plan (Money Follows the Person) Waiver is \$2,829** [calculated by multiplying the SSI [Federal Benefit Rate of \\$943](#) x 3 = **\$2,829**].

For people who have income greater than the federal poverty guidelines, [MassHealth Financial Eligibility Regulations](#) | [Index](#) | [130 CMR 520.026 – 35](#), explain how care expenses can add up so you can meet a deductible and then obtain eligibility. We are asking the Massachusetts Legislature to eliminate the “over income” problem with a law directing MassHealth to simply charge a premium equal to a person’s excess income. In other words: to pay the amount over the \$2,829 income limit (rather than spenddown every month) to qualify for home care. Read [Fact Sheet](#) and call your [State Rep and State Senator](#).

Income from [Veterans Aid & Attendance](#) and other VA pensions is not counted against you if you are a veteran or spouse who needs Medicaid for home care. Proper planning can make anyone eligible for these programs if you need the kind of care described in program regs:

- Adult Foster Care (AFC)*..... 1
- Community Choices*..... 2
- Group Adult Foster Care (GAFC)*..... 2
- Personal Care Attendant Program (PCA)*..... 2
- Senior Care Options (SCO): Combining* MEDICARE *with* MEDICAID 3
- MFP – Money Follows the Person (the Moving Forward Plan)*..... 3
- PACE – Program of All-Inclusive Care for the Elderly* PACE 4

Adult Foster Care (AFC)

This program is for people who cannot live alone safely, who have a family member or trusted friend who can devote time and attention that provides 24-hour care. AFC pays the caregiver a

stipend of up to \$18,000 per year (tax-free). The program is sometimes called by the names of agencies that serve as the overseers of the host caregiver: *Adult Family Care* and *Caregiver Homes*.

[Adult Foster Care Regulations](#) list two levels of care, which can include care for difficult behavior management. A nursing assessment determines the person's level of need. Social workers and nurses provide 24/7 on call support to the host and the elder. The elder can move in with the host provider, or a host can move in with the elder.

The host/provider must be: • 18 or older • maintain a private home in good repair and of sufficient size to accommodate both the AFC participant(s) and other residents of the home • complete a physical exam including a TB test • be physically able to supervise and/or provide hands on care to the elder and assist with meal prep, transportation to doctor appointments, provide Rx monitoring and personal care • respect participant's right to make decisions • pass a CORI check • be willing to work with ASAP program administrator. The "host" can be a son, daughter or any family member (but not a spouse) of the person who needs care. In 2014 the Massachusetts Legislature voted to exclude a patient's spouse from eligibility to participate in the program.

Community Choices

Community Choices is a program that provides as much support/services as needed for people who are clinically frail enough to qualify for immediate nursing home admission (so it cannot be used by people in assisted living). It is designed to provide an alternative to nursing home placement for people who are in imminent danger of nursing home placement, or who want to be discharged from a nursing home, but need substantial home care.

This program works best for people who do not have a preferred caregiver or family member who coordinates care. The elder has less control over caregivers than PCA and Adult Foster Care.

Group Adult Foster Care (GAFC)

This program pays for services for elders in subsidized senior housing and in assisted living centers. [GAFC pays \\$43.53 per day](#) for services such as daily personal care, homemaking, meals, and transportation.

The assisted living center may combine the GAFC services with the room and board which is paid by the resident, and another program called SSI-G. But you do not have to be eligible to receive SSI-G in order to qualify for GAFC. Use the  button on my [Hampden County Area Elder Care resources](#) page to locate assisted living centers offering apartments with the GAFC subsidy.

To qualify for GAFC, the person must have low monthly income, or obtain the MassHealth Home and Community Based Services waiver.

Personal Care Attendant Program (PCA)

This Medicaid funded program is best for people who already have a preferred caregiver. Regulations allow you to hire a son, daughter or any family member, except your spouse. The program pays for home care services for people who need daily assistance with ADLs. The MassHealth member hires the caregiver and submits time slips to a *fiscal intermediary* which processes payroll checks and income tax withholding.

[The PCA Regulations](#) explain how a written plan of services is developed jointly by the personal care agency and the person who needs care. Care plans can increase or decrease, depending on need or changing medical conditions. You can appeal if you don't get approval for enough care hours.

Senior Care Options (SCO): Combining  **with** 

For people age 65+, this Medicaid/Medicare funded program provides services, benefits and treatments authorized by your primary care physician, or your "primary care team". There are no co-pays, deductibles or other fees, and no out of pocket expenses. Your doctors must be part of the SCO provider network. General Information: (888) 885-0484

<https://www.mass.gov/service-details/senior-care-options-sco-brochures>

<https://www.mass.gov/senior-care-options-sco>

Services can include:

urgent care outpatient inpatient, including nursing home care outpatient/in patient surgery Prescriptions preventive care	transportation to and from medical appointments chores day care accessibility adaptations life lines companion services	home care hospice behavioral health dental, dentures and crowns PCA program/services and services ordered by your PCP or your "team"
---	--	---

There are several SCOs serving people in Hampden County:

Commonwealth Care Alliance (CCA): (877) 780-4711

Navi Care a/k/a Falon: (877) 255-7108 Deborah Deluca 508-736-7220

Senior Whole Health (888) 566-3526

Tufts: (800) 701-9000

United Health Care: (888) 834-3721

MFP – Money Follows the Person (the Moving Forward Plan)

In Massachusetts MFP is called the [Moving Forward Plan](#). To apply for MFP, the person must: be living in a Skilled Nursing Facility now, need a clinical level of care, have a plan to be safely cared for in their home in the community, and comply with Medicaid income and asset rules.

YOUR OPTIONS

The ABI and MFP Waiver Programs

If you are living in a facility, and are wondering how you can move out and live more independently, we invite you to consider applying for one of these programs.

ABI ACQUIRED BRAIN INJURY WAIVER PROGRAMS

ABI-RH Waiver
Residential
Habitatation

For adults with ABI* who need 24-hour supervision and staffing in a provider-operated residence

ABI-N Waiver
Non-residential
Habitatation

For adults with ABI* who don't need 24-hour supports/supervision, but who need waiver services in their home

MFP MOVING FORWARD PLAN WAIVER PROGRAMS

MFP-RS Waiver
Residential
Supports

For adults who need 24-hour supervision and staffing in a provider-operated residence

MFP-CL Waiver
Community Living

For adults who don't need 24-hour supports/supervision, but who need waiver services in their home

A person over age 65 who wants to leave a Skilled Nursing Facility and return to their home can apply for [MFP-CL \(Community Living\)](#). A person who has had a stroke could also apply for ABI-N (Acquired Brain Injury Non-Residential, meaning the person is not seeking a slot in a group home). [MFP pays for services](#) including Assisted Living and Adult Companion to Personal Care, Respite and Transportation. The application is filed with and screened by the Moving Forward Plan Waiver Unit at UMass Medical in Shrewsbury. (855) 499-5109

Since MFP is for people who have been in a nursing home for 90 consecutive days or longer, you are not eligible if you are at home now and want to continue living at home.

PACE – Program of All-Inclusive Care for the Elderly PACE

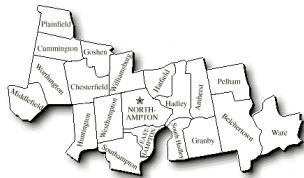

PACE is for patients who are eligible for Medicare and Medicaid. PACE coordinates healthcare to help elders live safely in their own home. For people who are on Medicare and Medicaid there is no out of pocket expense. Cost share or private pay options are available for people who can't qualify for Medicaid.

The purpose of the program is to help prevent nursing home admissions. If a nursing home admission becomes necessary, the PACE plan pays for the long-term care in the facility.

All services must be provided or authorized by the PACE Interdisciplinary Team, except emergency services. PACE participants may be held liable for unauthorized costs that are outside the PACE program agreement.
